

Claim 3. (Original) The apparatus as in claim 1; wherein, all of the wall members and the base member are fabricated from sheets of heat proof material.

Claim 4. (Original) The apparatus as in claim 1; wherein, all of the wall members and the base member are fabricated from sheets of aluminum.

Claim 5. (Original) The apparatus as in claim 1; further comprising
releasable securing means for maintaining all of the wall members in an upright
position relative to the base member.

Claim 6. (Original) The apparatus as in claim 1 further including at least one gas line opening associated with one of the wall members.

Claim 7. (Original) The apparatus as in claim 1; wherein, a gas line opening exists between at least one of the side wall members and the base member.

Claim 8. (Original) The apparatus as in claim 5 further including at least one gas line opening associated with one of the wall members.

Claim 9. (Original) The apparatus as in claim 5; wherein, a gas line opening exists between at least one of the side wall members and the base member.

Claim 10. (Canceled)

Claim 11. (Canceled)

Claim 12. (Canceled)

Claim ~~13~~ 10. (Currently Amended) The apparatus as in claim 1; wherein, the height of the rear wall member is greater than the height of each of the side wall members.

Claim ~~14~~ 11. (Currently Amended) The apparatus as in claim 1; wherein, the rear wall member and the base member are provided with alignable handle apertures.

Claim 45: 12. The apparatus as in claim 5; wherein, the rear wall member and the base member are provided with alignable handle apertures.

Claim 46: 13. (Currently Amended) The apparatus as in claim 6; wherein, the rear wall member and the base member are provided with alignable handle apertures.

Claim 47: 14. (Currently Amended) The apparatus as in claim 5; further including at least one gas line opening associated with one of the wall members.

Claim 48: 15. (Currently Amended) The apparatus as in claim 17; wherein, the height of the rear wall member is greater than the height of each of the side wall members.

Claim 49: 16. (Currently Amended) The apparatus as in claim 18; wherein, the rear wall member and the base member are provided with alignable handle apertures.

Claim 20: 17. (Currently Amended) The apparatus as in claim 19; wherein, all of the wall members and the base member are fabricated from sheets of aluminum.
